ABOUT US

Behsaz Machine Company was initially founded in 1986 in purpose of servicing and repairing the Dairy machinery of factories throughout the country.

The company started manufacturing the equipment soon after 1989 such that became a leading in providing installations for the Dairy, Juice and Soft drink industries after a short while.

With more than two decades of experience, employment of modern technology and also with cooperation of GEA AHLBORN Company of Germany Behsaz Machine is considered as a reliable producer of Dairy and Beverages equipment.

Behsaz Machine's installation and equipment enjoy an excellent reputation throughout the country and they have also been exported to overseas markets where high standards have to be observed.
